HOW TO GET RATED?

We offer programs for all members pending your level of play. When players request a Club Rating it is based on required shots for that level. The rating is based on how consistently a player performs the required shots to play in a certain level during game situations. Please review the requirements for a level prior to a Club Rating.

Please note that all Mixed Socials, All Level Socials and Ladies 2.5, do not require a club rating. We recognize that some members, no matter their skill set prefer to play in the social programs only.

THE PURPOSE:

The purpose of rated programs is to ensure a consistent and competitive level of play for all players in that program as much as possible. We will have a call up system as well for players close to the next level for 2023.

If you are currently not Club Rated and are considering playing in any program level 3.0 and above, please contact our Pickleball Coordinator (sscarfone@greenhillslondon.com) to set up a time for the evaluation.

HOW TO GET RATED:

Rating times will be set 2 to 3 times monthly for each level and advance sign ups will be required. Once an evaluation is requested, players will be preevaluated at no cost in their current level. Some exceptions may/will apply. If players do not receive a level there is a two month waiting time to try again.

Note, a rating is not permanent. The level you receive must be maintained and hopefully improved upon. We are often evaluating in programs and players will be contacted if skills no longer meet that level they have obtained. Please note that if you have been away from a level for a period of time, that you do have the skills required when you come back in for the enjoyment of the other members. Players can play down a level to work on their skills if needed. Please contact our club coordinator for this exception.

Please do not register for a program that you are not currently rated for before you have a Club Rating. Players registered without a Club Rating will be removed and contacted by our Pickleball Co-Coordinator.

WHO EVALUATES:

Our Club evaluators are either a Pro Level Coach or CRS (Certified Rating Specialist). We take this seriously as we know levels are very important to the player. If you are looking to enter a tournament, be confident to enter in the level which you are club rated. Tournaments are a great way to develop your game when registering in your appropriate level.

RATING COST:

\$30.00 PER PLAYER for Club Rating which covers the game evaluations (3 games minimum) and written report outlining your individual strengths and areas for improvement. The court fee is additional cost. Please note that this is for our Club purposes and is not an official rating.

PRIVATE LESSON

Our coaches specialize in coaching beginners through to advanced levels. Members can arrange a set time outside of clinic times with one of our coaches for a private lesson for 1 to 4 players. Members can book courts as per the regular booking privileges (up to one week in advance). Please confirm pricing with your coach.
